DP subject: (Subject-focused essay)	**Physics**		
DP subjects: (Interdisciplinary essay)		Interdisciplinary framework:	
Research question:	**How does the impact speed of a sphere affect the size of the crater when collide with the flour surface?**		
Assessment details			
Criterion:	Mark awarded:	Commentary: (Incorporating wording from the assessment criteria)	
A: Framework for the essay [Maximum possible mark: 6]	**5**	The research question is relevant and focused although not clearly worded. (5) Research methods are mostly suitable although some simple improvements would be possible. (4) Structural conventions are used effectively although some theoretical analysis should have been included earlier in the essay. (5)	
B: Knowledge and understanding [Maximum possible mark: 6]	**4**	Relevant research materials establish some knowledge without the necessary depth. (4). Relevant terminology is used without full precision. (3) Relevant concepts are explained and used with partial effectiveness. (4)	
C: Analysis and line of argument [Maximum possible mark: 6]	**4**	The analysis is partially effective and produces some relevant findings. (3). A sustained line of argument links the research question, research findings and conclusions. (5)	
D: Discussion and evaluation [Maximum possible mark: 8]	**4**	A partially balanced discussion is sometimes supported by appropriate evidence.(4). An evaluation of the effectiveness of the essay is present, with some strengths and limitations stated. (4).	
E: Reflection [Maximum possible mark: 4]	**3**	Reflection on the extended essay learning experience is partially evaluative and includes specific examples. (3) Reflection shows evidence of the student's growth and transfer of learning. (3)	
Total marks awarded	**20**/30		

Holistic comment on the essay:	The essay presents a reasonable research question with limited values and not a fully consistent analysis, particularly in the estimation of uncertainties and the posterior evaluation. The theoretical aspects are reviewed without the necessary depth to reach significant conclusions.
